- Developed a web based application to automatically generate academic timetable based on user inputs
 - Designed logic to handle dynamic subject allocation and lab scheduling
 - Reduced manual timetable preparation effort through automation
 - Technologies: HTML5, CSS3, JavaScript, Node.js
- GitHub Live Demo

Emergency QR System

- Developed an Emergency QR Code web system that allows users to quickly access important emergency information by scanning a QR code.
 - Implemented functionality to display critical details such as medical information, emergency contacts, and identification data.
 - Designed a responsive user interface using HTML, CSS, and JavaScript for smooth access on mobile and desktop devices.
 - Technologies: HTML, CSS, JavaScript
- GitHub Live Demo

Calculator Web Application

- Developed a responsive calculator web application supporting arithmetic operations
 - Implemented JavaScript-based logic handling and input validation
 - Technologies: HTML5, CSS3, JavaScript
- GitHub Live Demo

Experience

Web Development Intern – Skill Craft Technology

- Developed responsive web pages using HTML, CSS, and JavaScript
- Worked on frontend–backend integration and API usage
- Improved code quality by following clean coding practices
- Gained hands-on experience in full stack web development

Event Volunteer – Lumina Fest

- Assisted in event coordination and crowd management
- Collaborated with team members to ensure smooth execution

Certifications

- Java Programming Certificate – HackerRank
- Common Aptitude Test – Internship Studio

Soft Skills

- Problem Solving
- Analytical Thinking
- Communication
- Teamwork
- Time Management
